

Site Location: Chelmsford, Essex

Contract Value: £80,000

These prestigious new offices are the result of three hard months of careful space planning and aesthetic consultation.

Our latest product, a type of sound-dampening glass, provided minimalist looks in single glazed form. Where audible privacy was even more important, double glazed, bespoke partitions were used with stunning curves to complete the overall impression.

We were pleased to report the works were completed within budgets and to the timescales set.

" This is just a short note to say a big thank you to yourself and the rest of your staff for your assistance during the construction of our new company HQ based in Chelmsford.

As you are aware it was a very important project for the company but one we are now very proud of.

Perhaps you can pass on my thanks to Steven, Marj and the rest of your team."

**Steven Bond**  
Director  
Beresfords Group
