

The Willow Foundation

Site Location: Hatfield, Hertfordshire

Contract Value: £60,000 (plus a sponsored swim)

The Willow Foundation set a very simple and clear criterion: aesthetics, budget and timescale. Which Storax achieved with a crisp modern design.

To be associated with such a worthwhile cause was an absolute honour for all the Storax staff. We were humbled by the sheer grit and determination of all of Bob's team in driving the cause from its rather small-scale beginnings to the organisation now found at Willow House.

Through comprehensive internal and external redecoration this former tired old bank was transformed into a welcoming, stylish and up-to-date office environment. Subtle use of solid partitions and glass kept the space open and bright, whilst still screening the chic reception from the office areas.

“Storax did a great job for the Willow Foundation. They transformed a former bank into a fabulous new headquarters for the Charity. They always accommodated our changes with a smile and nothing was too much trouble for them. Many thanks to them all.”

Bob Wilson
Founder
